The Tube di Mariano Light

# The Tube Showroom

The Tube, founded in Lecce in 2023, is the new project by architect Giulio Mariano of Studio Light Mariano and Dominique Wolniewicz.

With roots dating back to 1898, Mariano Light has created an international portfolio in the field of event lighting, working on historic buildings, interiors, shopping malls, weddings, live events, fashion shows and installations for festivals and public spaces. Over the years, the company has collaborated with prestigious international brands such as Tiffany, Bulgari and Dolce & Gabbana, carrying out projects in 22 different countries.

The showroom, located in a 28 meters a long gallery, offers a one-of-a-kind immersive experience to visitors. The name "The Tube" evokes a feeling of continuity and fluidity, reflecting the goal behind creating a modern and innovative lighting experience.

Some of the most renowned architects, designers and artists, who have worked in the Salento and Apulian areas in the past, were involved in the concept phase for The Tube's launch collection to create unique illuminations.

Each work expresses the artistic vision and creativity of its authors, who have interpreted the distinctive elements of our territory in an original way.

With The Tube, the first stage of a journey that aims to extend beyond the local and national territory is realized, bringing the artistic and innovative vision of its creators to know new approaches and contaminations.

Welcome to The Tube, where art and light come together to create an unforgettable experience.

## La più bella del reame - Ginger

The artist, Ginger, begins with a quote from the film Snow White, “Mirror, mirror on the wall... who is the fairest of them all?” This quote serves as the starting point for exploring the concept of immortalizing and projecting our image into the future, a notion that remains relevant today. In homage to the skilled craftsmen of Apulia, the artist employs lights to construct a luminous tunnel, akin to a time-traveling black hole that moves at the speed of light.

Furthermore, Ginger harbors a profound passion for traditional illuminations, to the extent that their undergraduate thesis was dedicated to the Illuminations of Kobe in Japan, which have been produced by Italian workers since 1995.

Designer/Maker: Ginger by Mariano Light

Materials & Techniques: Wood, glass, light bulbs and stainless steel.

Tension: 12V

Date of creation: 2023

Dimensions: 100 x 100 x 9,7 cm

Weight: 27,4 kg

Country of Origin: Italy

## Infinto Luminario - Ginger

Inspired by a gallery of illuminations typical of the Apulian tradition, Ginger wanted to project this ancient art that dates back to the Baroque into the future. Ginger has always had a deep passion for traditional illuminations, to the point of having dedicated his thesis degree at the Illuminations of Kobe, in Japan, made with Italian workers since 1995.

Furthermore, Ginger harbors a profound passion for traditional illuminations, to the extent that their undergraduate thesis was dedicated to the Illuminations of Kobe in Japan, which have been produced by Italian workers since 1995.

Designer/Maker: Ginger by Mariano Light

Materials & Techniques: Wood, glass, lamps and stainless steel.

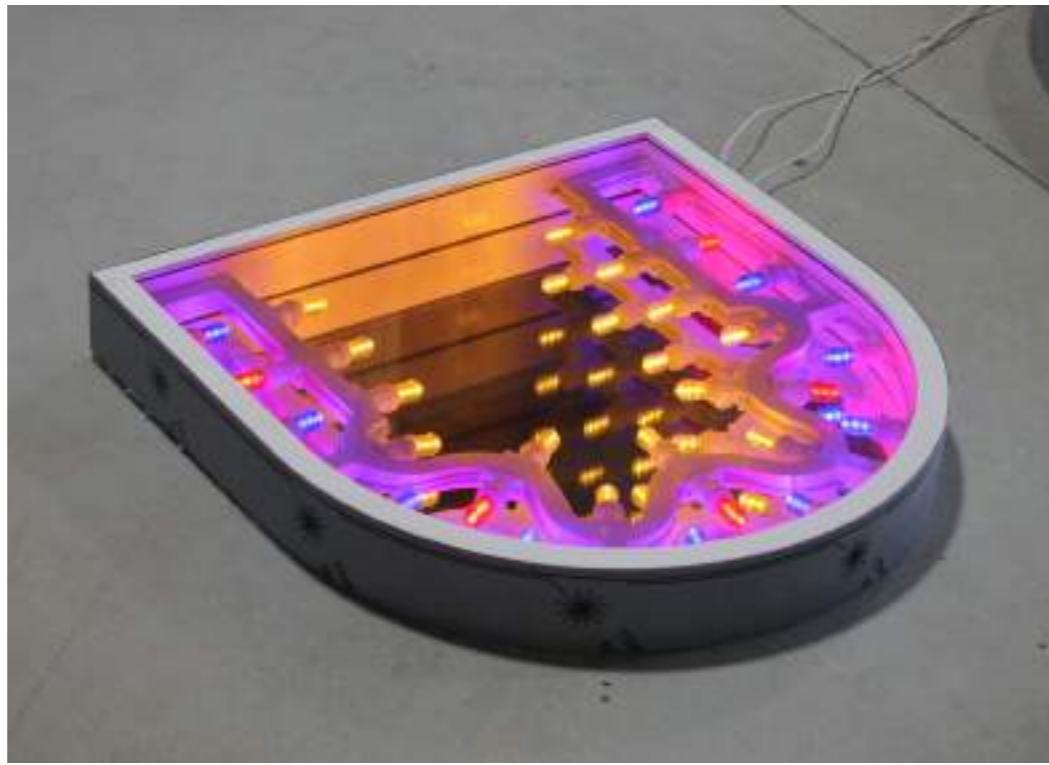

Tension: 12V

Date of creation: 2023

Dimensions: 62 x 62 x 8,5 cm

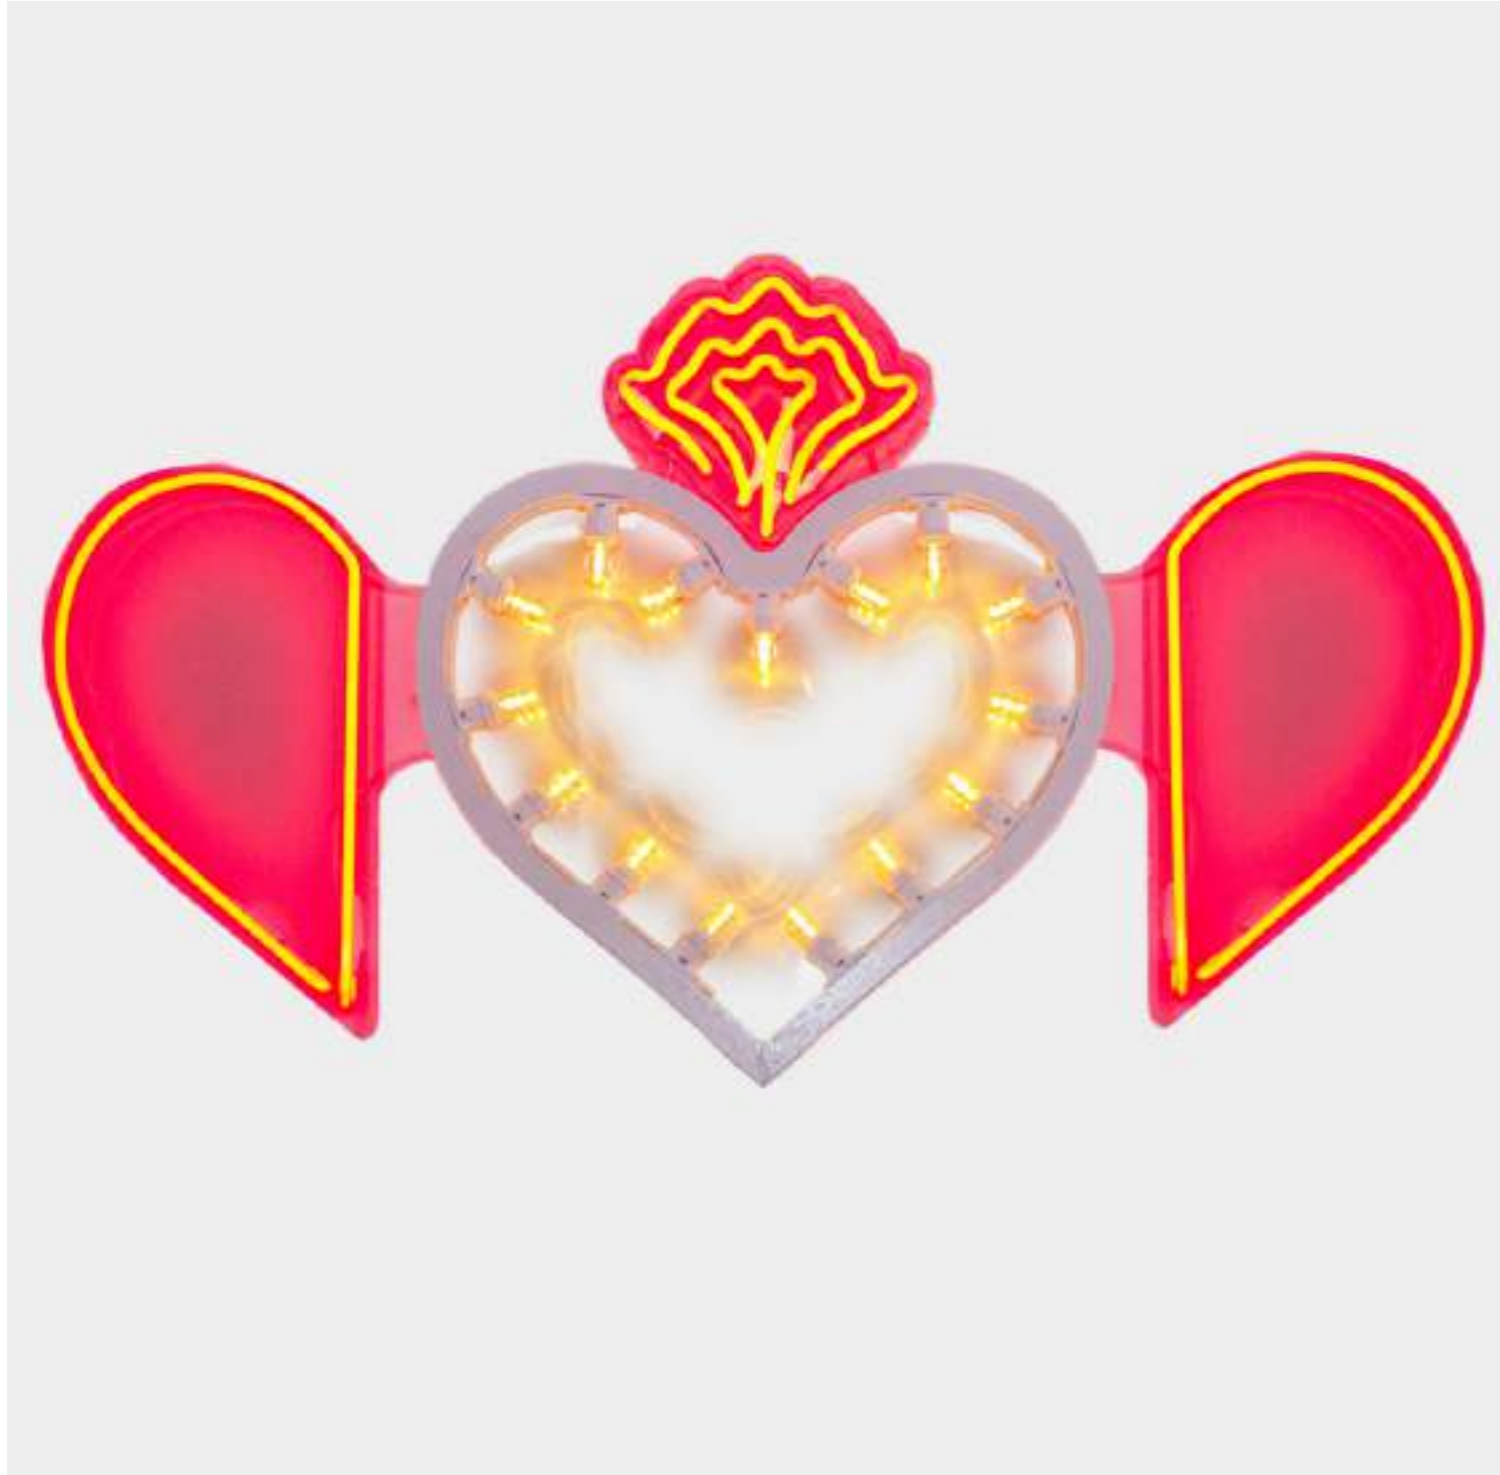

Weight: 15 kg

Country of Origin: Italy

## Ex Voto - Ludovica Serafini & Roberto Palomba

The lights dress up the streets of the Salento towns on the feast day of their patron saint. Ludovica + Roberto Palomba liked the idea of adding to these festive decorations a thank you to the “joie de vivre” in the form of an Ex Voto. To the traditional material of the lights they added a neon to make the lights even more pop.

Designer/Maker: Ludovica Serafini & Roberto Palomba by Mariano Light.

Materials & Techniques: wood, plexiglass, neon and light bulbs

Tension: 12 V + 4.000 V

Date of creation: 2023

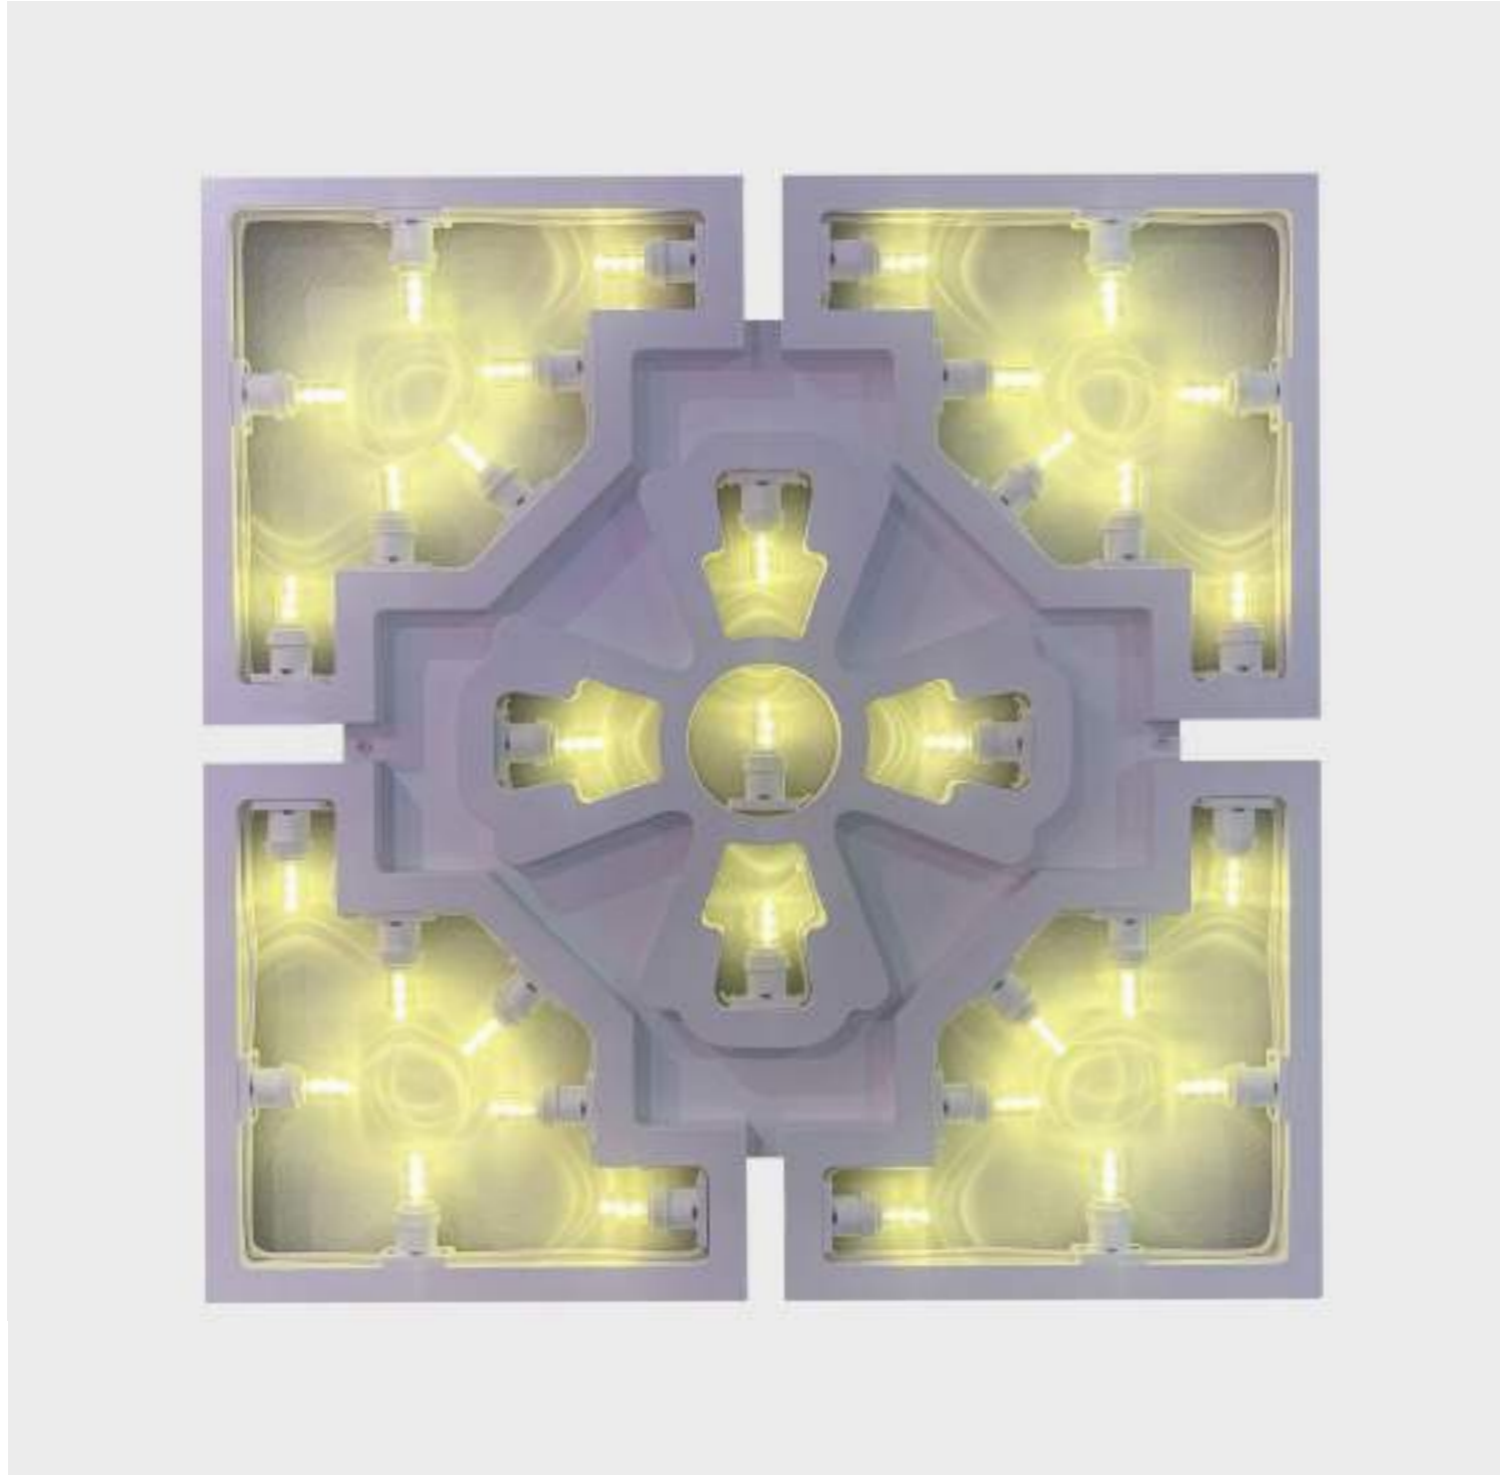

Dimensions: 102 x 58 X 5 cm

Weight: 7 kg

Country of Origin: Italy

# Cementina - Ludovica Serafini & Roberto Palomba

Starting from the Salento area, Ludovica Serafini and Roberto Palomba wanted to create a collection that resumed the DNA of the place, marrying two local excellences: lights and cement tiles. This is how this collection was born which, like the tiles, has an infinitely repeatable basic design.

Designer/Maker: Ludovica Serafini & Roberto Palomba by Mariano Light.

Materials & Techniques: with wood, light bulbs and magnets.

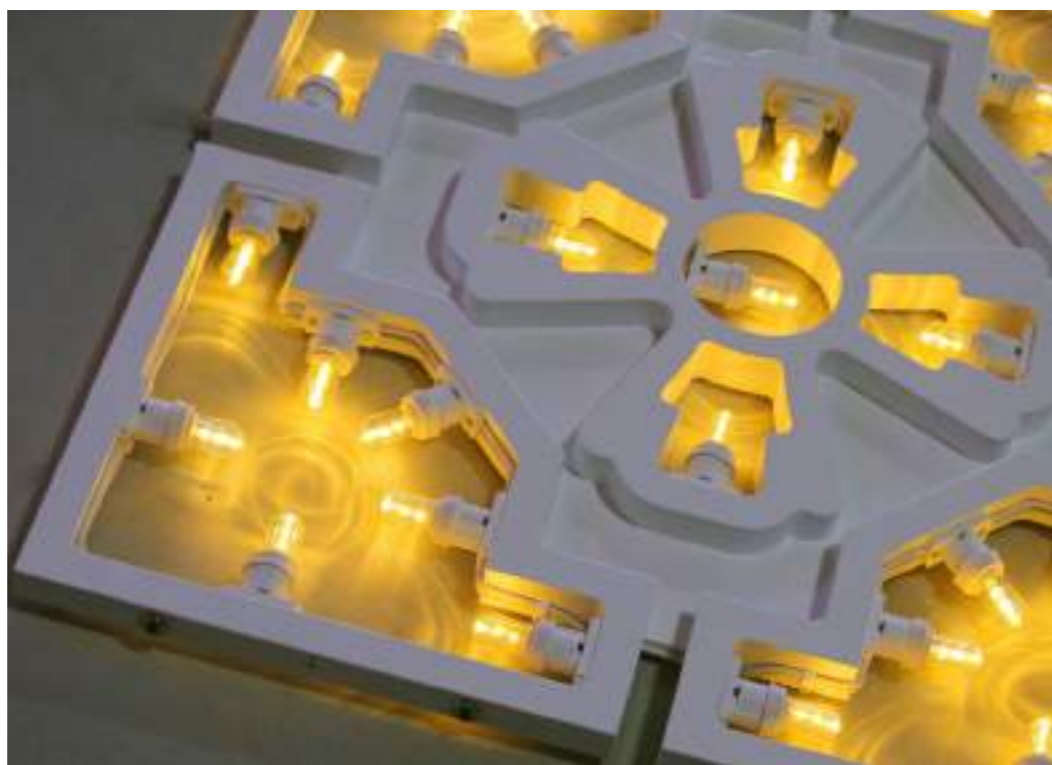

Tension: 12V

Date of creation: 2023

Dimensions: 60 x 60 x 3 cm

Weight: 3 kg

Country of Origin: Italy

## Circum I - Livia Cannella

The project idea is based on two fundamental elements: the “container” frame and the “content” theme. The Baroque inspired trait intends to merge - in a sort of cultural twinning - the Roman origin and the Apulian destination of the works. In their diversity, the works appear somehow interdependent, conceived in a sort of interchangeability of meaning and values.

Designer/Maker: Livia Cannella by Mariano Light.  
Materials & Techniques: wood, light bulbs, LED strips and dibond.

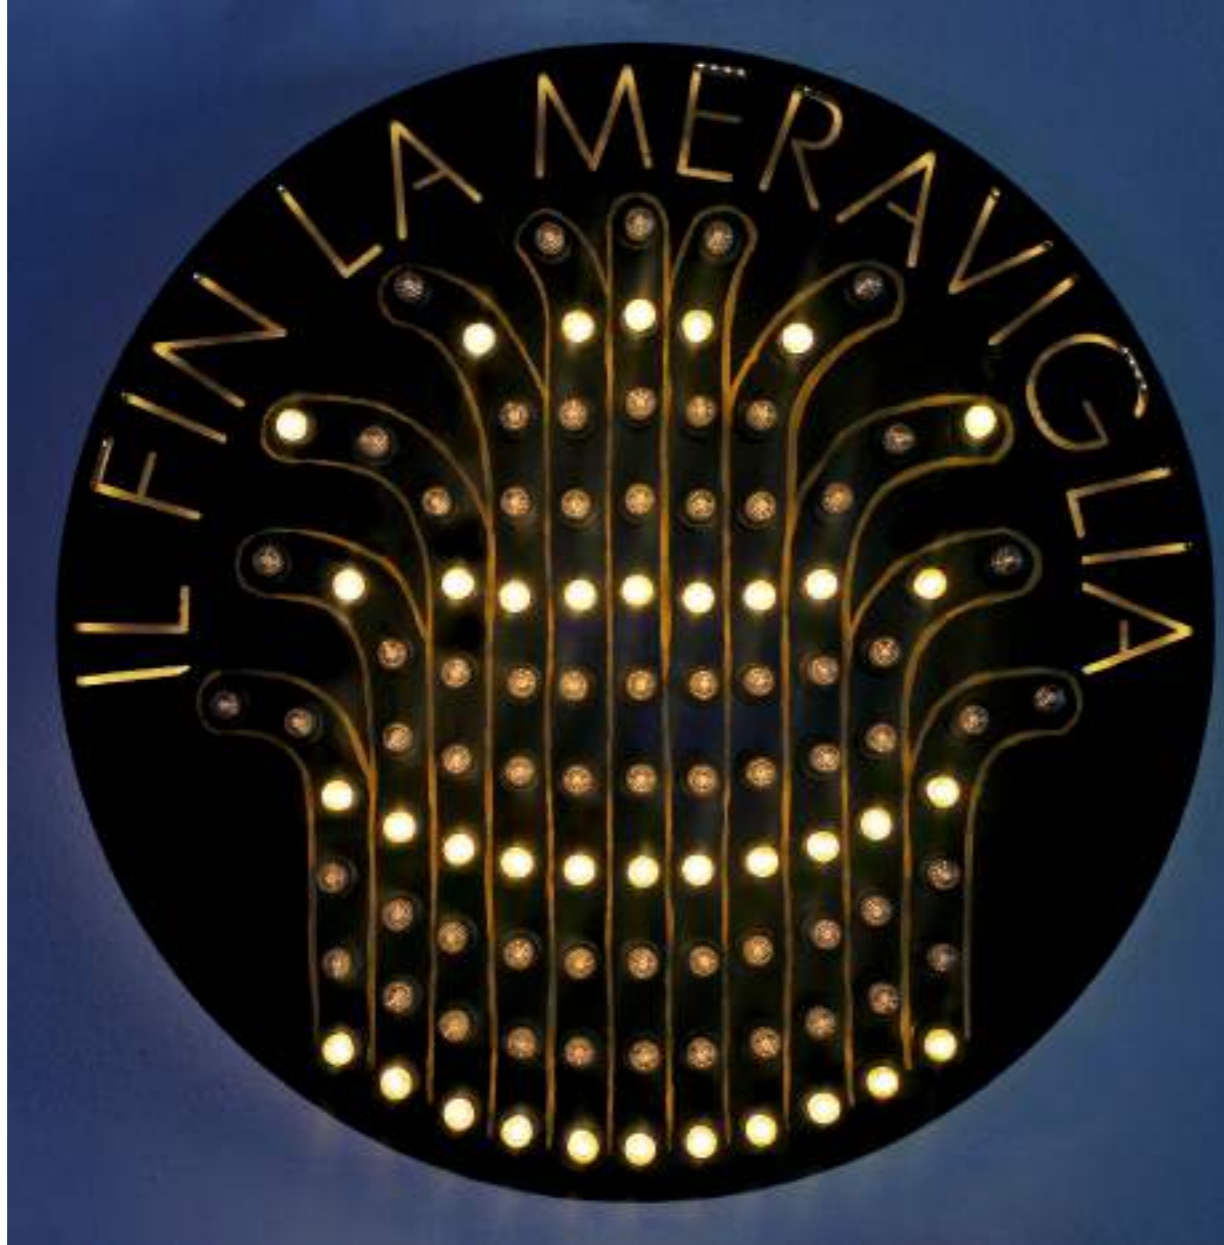

Tension: 12V + 220V

Date of creation: 2023

Dimensions: 70 x 70 x 10 cm

Weight: 8,2 kg

Country of Origin: Italy

## Circum II - Livia Cannella

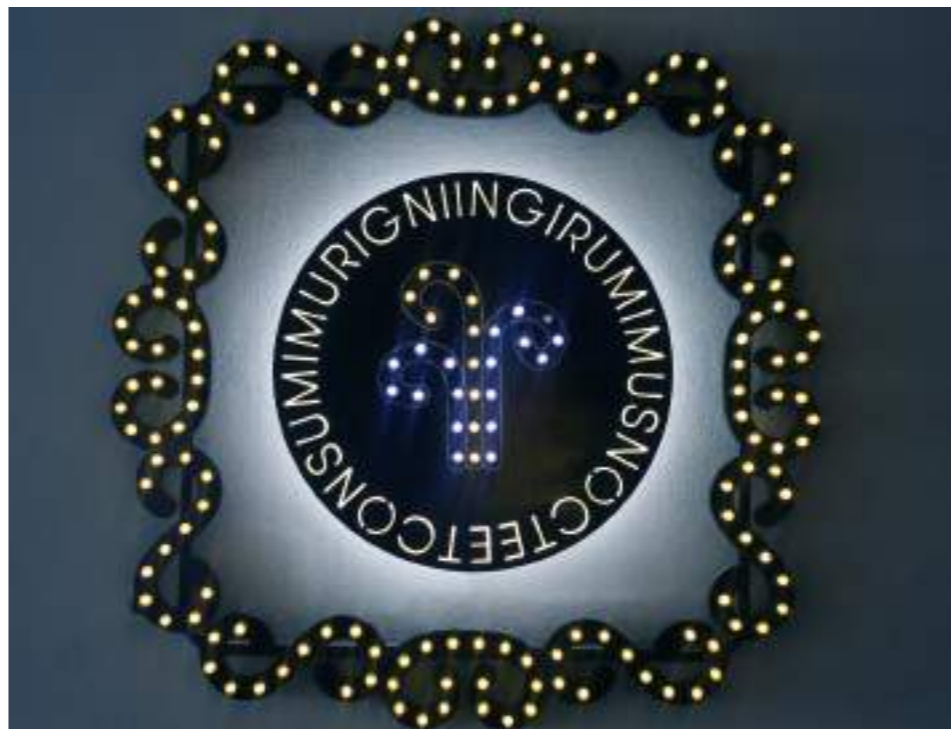

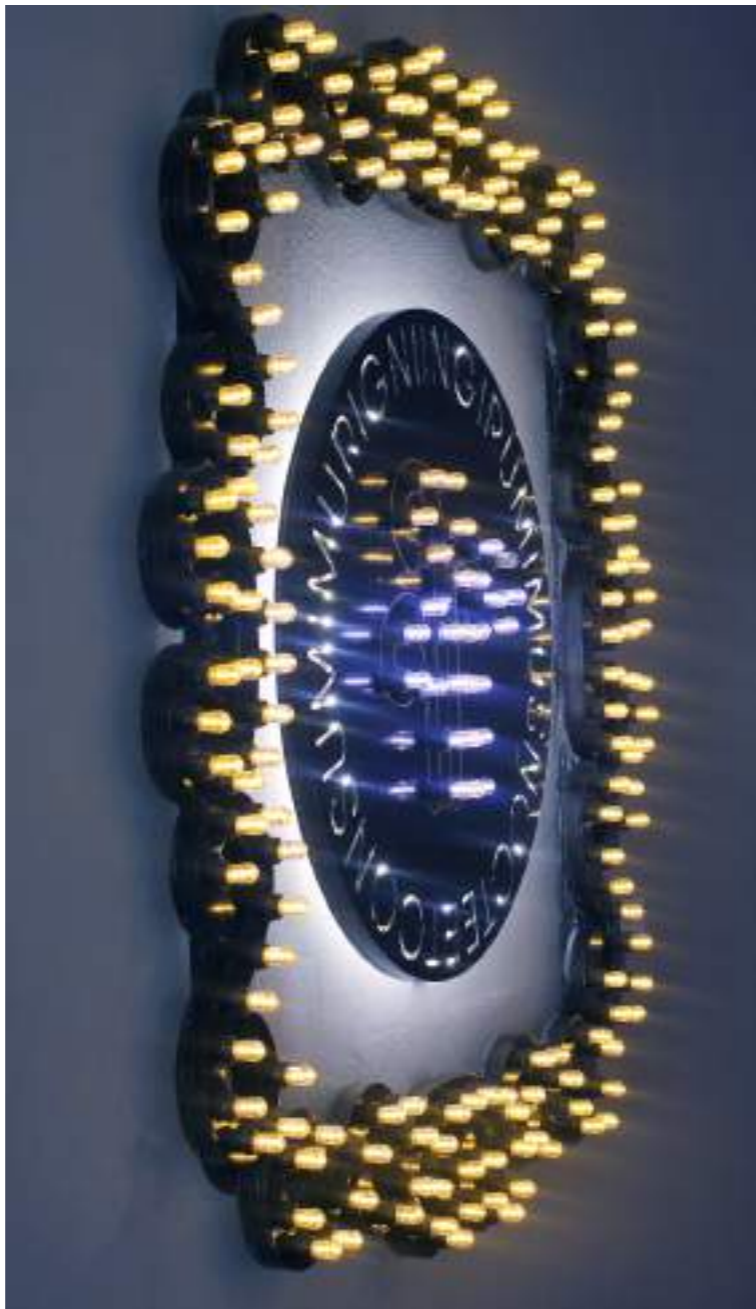

The project idea is based on two fundamental elements: the “container” frame and the “content” theme. The Baroque-inspired trait intends to merge - in a sort of cultural twinning - the Roman origin and the Apulian destination of the works. In their diversity, the works appear somehow interdependent, thought out in a sort of interchangeability of meaning and values

Designer/Maker: Livia Cannella by Mariano Light.  
Materials & Techniques: wood, light bulbs, LED strips and dibond.

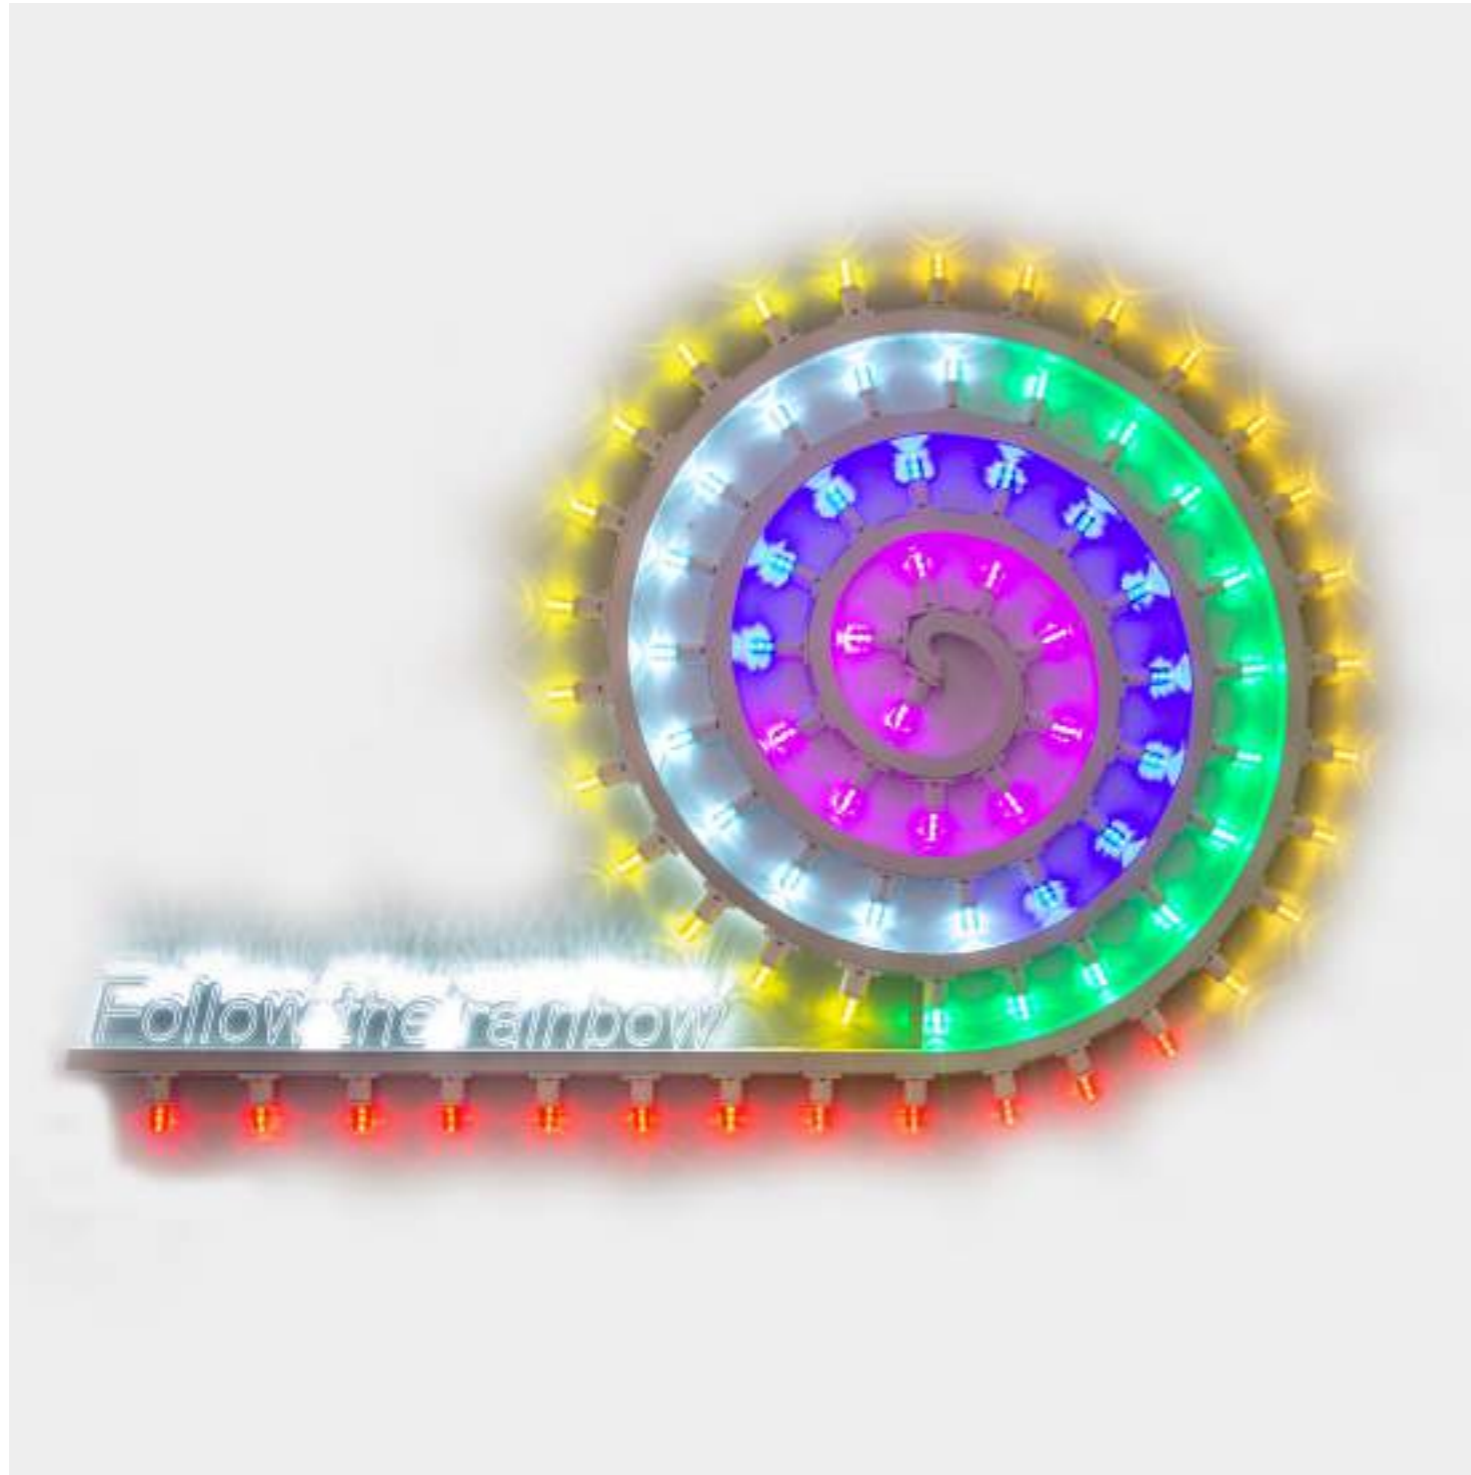

Tension: 12V

Date of creation: 2023  
Dimensions: 120 x 120 x 10 cm  
Weight: 14,9 kg  
Country of Origin: Italy

## Follow The Rainbow. - Alessio Gloria

Follow the light that has opened your eyes by enveloping you in each of its components.

You marvel every time by enlivening yourself after the shadow and guide your hope after the rain.

Follow the natural code of an infinite rainbow that wraps around itself in the flow of a spiral of light.

Baroque intends to merge - in a sort of cultural twinning - the Roman origin and the Apulian destination of the works.

Designer/Maker: Alessio Gloria by Mariano Light.

Materials & Techniques: Wood, lamps, plexiglass and LED strips

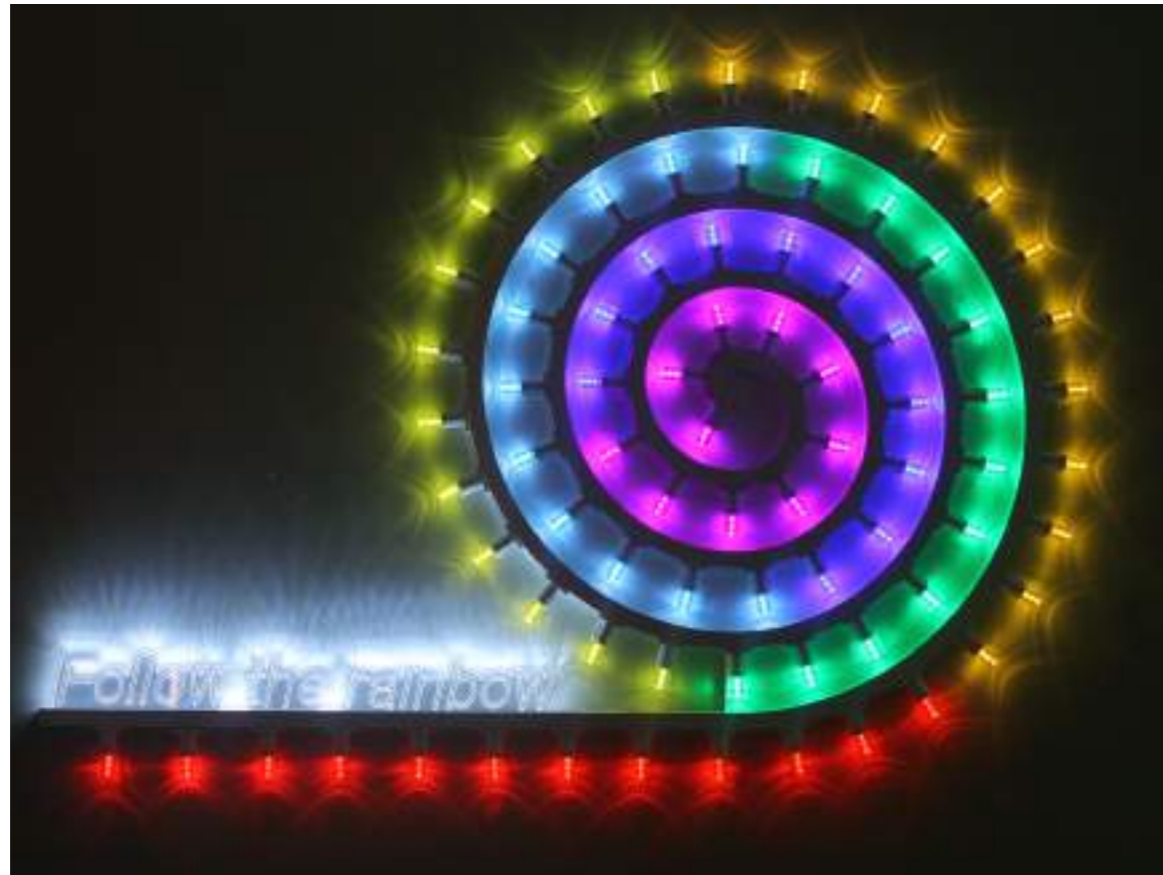

Tension: 12V

Date of creation: 2023

Dimensions: 120 x 85 x 4 cm

Weight: 7 kg

Country of Origin: Italy

## Love in the mirror - Alessio Gloria

Love poses through the reflection of its aspiration to oneness: fusion of essences that generates a complete light.

To you intimacy, confidence, the delicate poetics of essentiality, sympathy and compassion, the serene stillness that you can perceive.

For Alessio Gloria, the idea is the trait that figures in an icon. 2 The luminaire was made with wood, light bulbs, plexiglass and LED strips

Designer/Maker: Alessio Gloria by Mariano Light.

Materials & Techniques: Wood, glass, neon flex and LED strips

Tension: 12V

Date of creation: 2023

Dimensions: 70 x 70 x 10 cm

Weight: 10,4 kg

Country of Origin: Italy

## Fusion Dreams I - Andrea Russo

“Fusion Dreams” is a luminous artwork that reflects the beauty and tradition of Puglia. Inspired by a fig tree that grew in a dry stone wall, the work represents the adaptability and resilience of nature.

Designer/Maker: Andrea Russo by Mariano Light.

Materials & Techniques: Wood, glass, lamps and LED strips

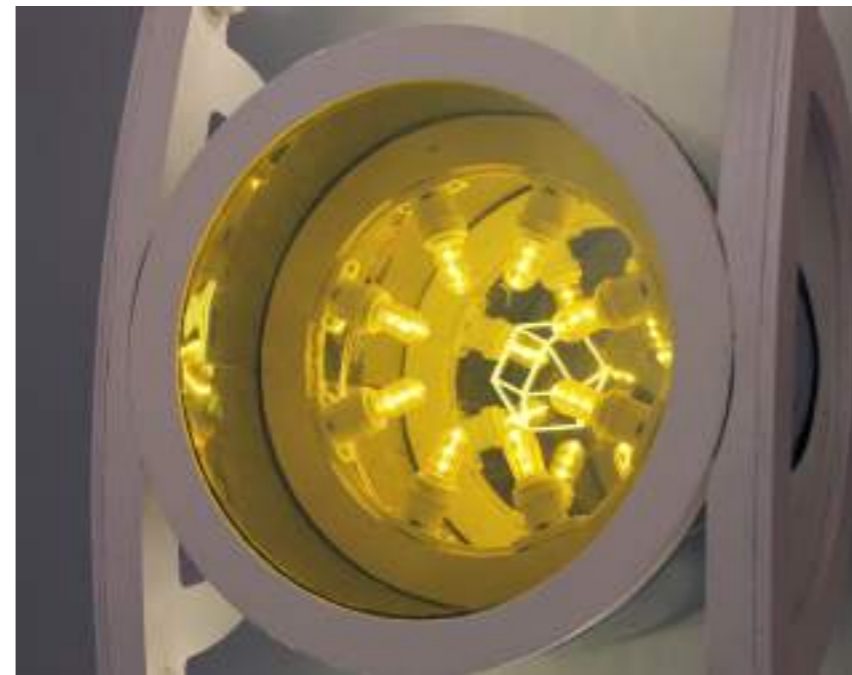

Tension: 24 V

Date of creation: 2023

Dimensions: 35 x 100 x 30 cm

Weight: 6 kg

Country of Origin: Italy

## Fusion Dreams II - Andrea Russo

“Fusion Dreams” is a luminous artwork that reflects the beauty and tradition of Puglia. Inspired by a fig tree that grew in a dry stone wall, the work represents the adaptability and resilience of nature.

Designer/Maker: Andrea Russo by Mariano Light  
Materials & Techniques: Wood, glass, LED strips and lamps  
Tension: 24 V

Date of creation: 2023  
Dimensions: 25 x 80 x 20 cm  
Weight: 3 kg  
Country of Origin: Italy

## Caleidoscopio - Bruna Taurino

Salento is like a kaleidoscope, full of nuances and secrets to be discovered day after day. When you think you know every facet of it, this land still amazes you, giving you unique and unrepeatable moments. Preserve it, cherish it, love it: this land is a precious gift that must be treated with the utmost respect and dedication.

Designer/Maker: Livia Cannella by Mariano Light.

Materials & Techniques: Wood, copper leafing, neon flex, lamps and mirror

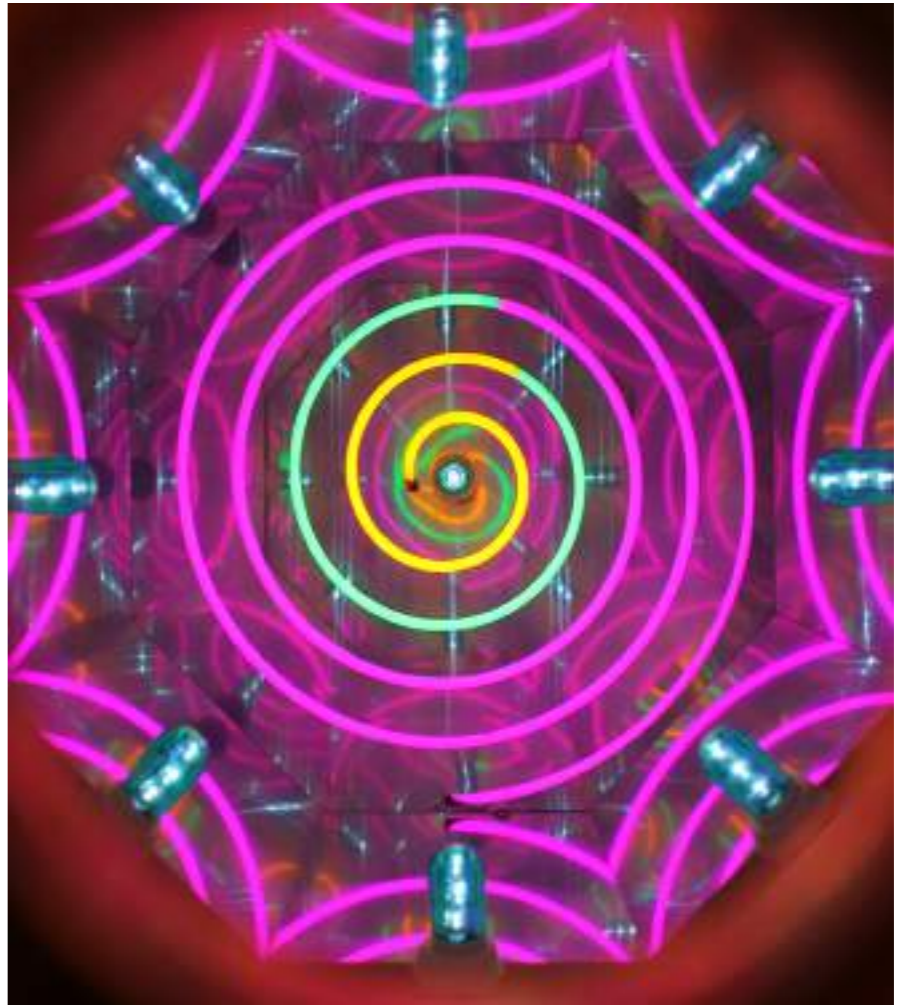

Tension: 12V

Date of creation: 2023

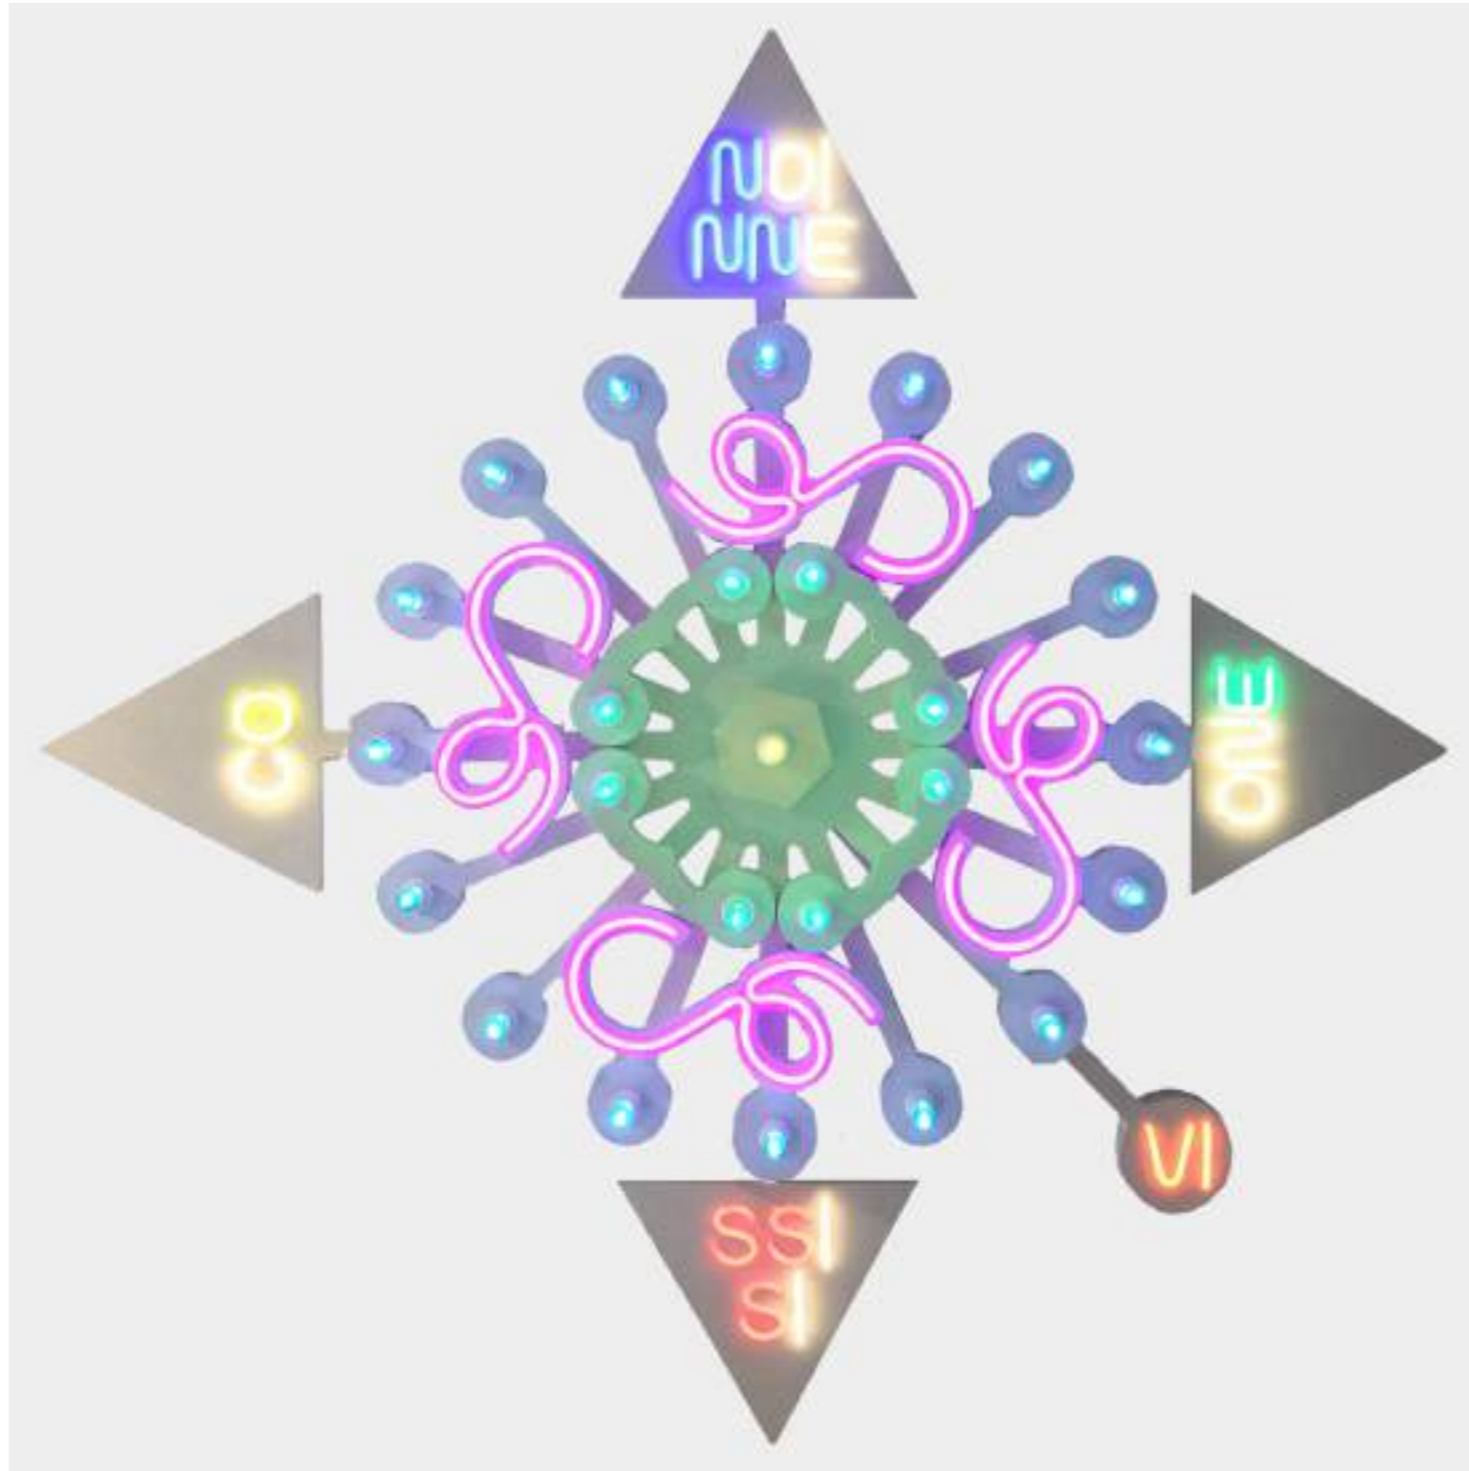

Dimensions: 40 x 40 x 60 cm

Weight: 14 Kg

Country of Origin: Italy

## VI Magnetico - Bruna Taurino

Telling about Salento is an extraordinary experience that is lived through a symphony of colours, aromas and sensations that mingle with the wind. Let yourself be carried away by the wind, if you follow the flow through CONNECTION and SHARING you will stop in the right place at the right time

Designer/Maker: Bruna Taurino

Materials & Techniques: Wood, iron, neon flex and light bulbs.

Tension: 12V

Date of creation: 2023

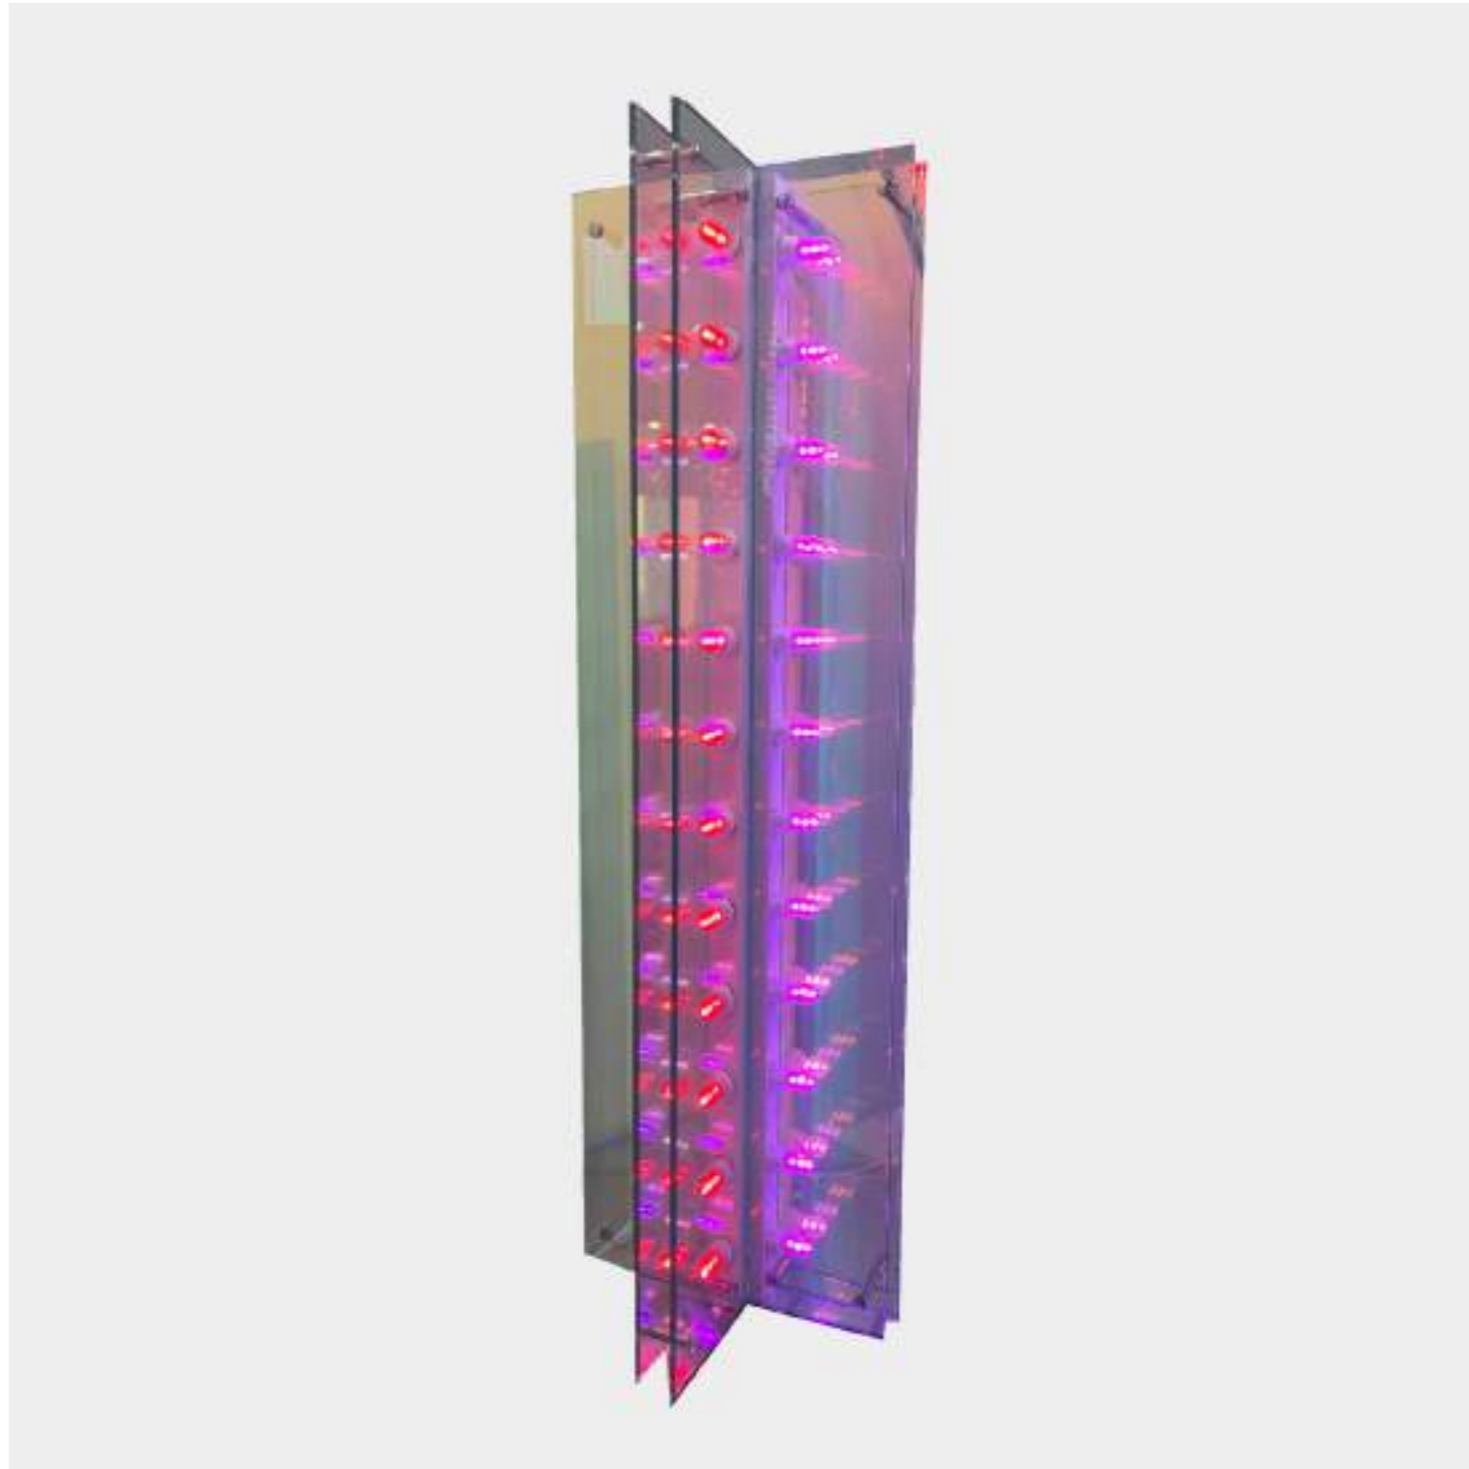

Dimensions: 120 x 120 x 24 cm

Weight: 7,2 kg

Country of Origin: Italy

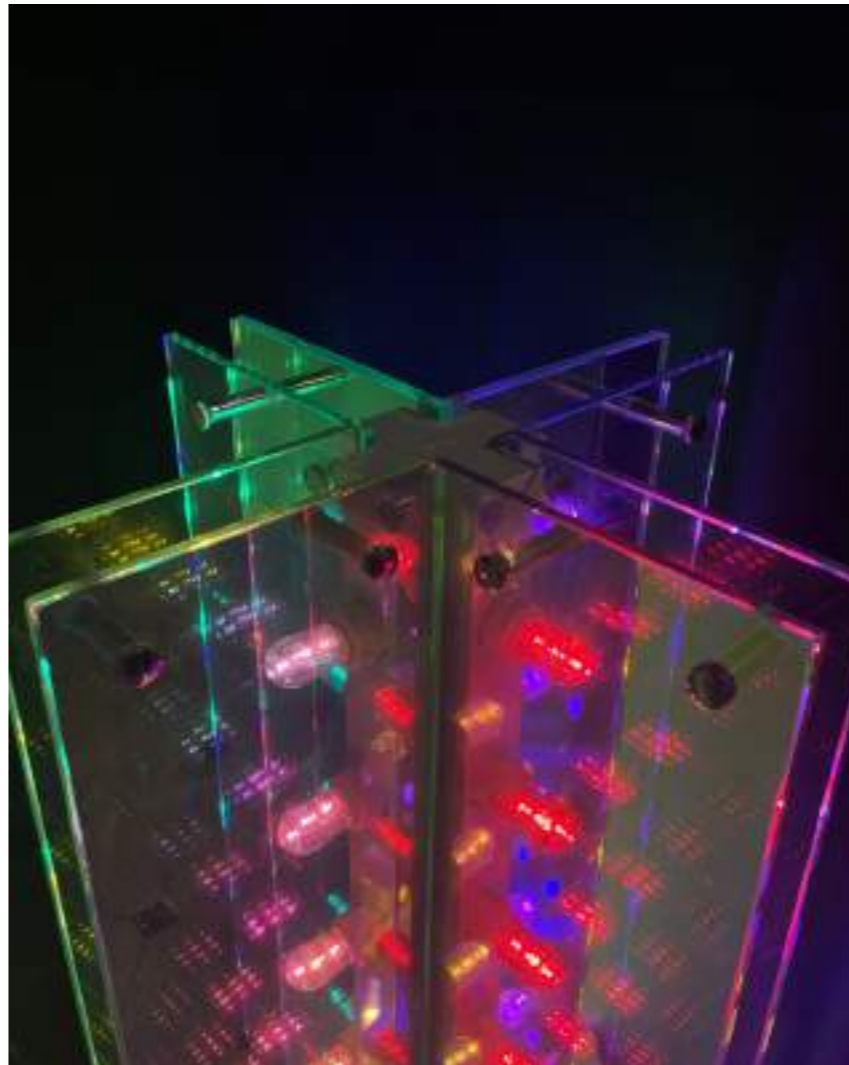

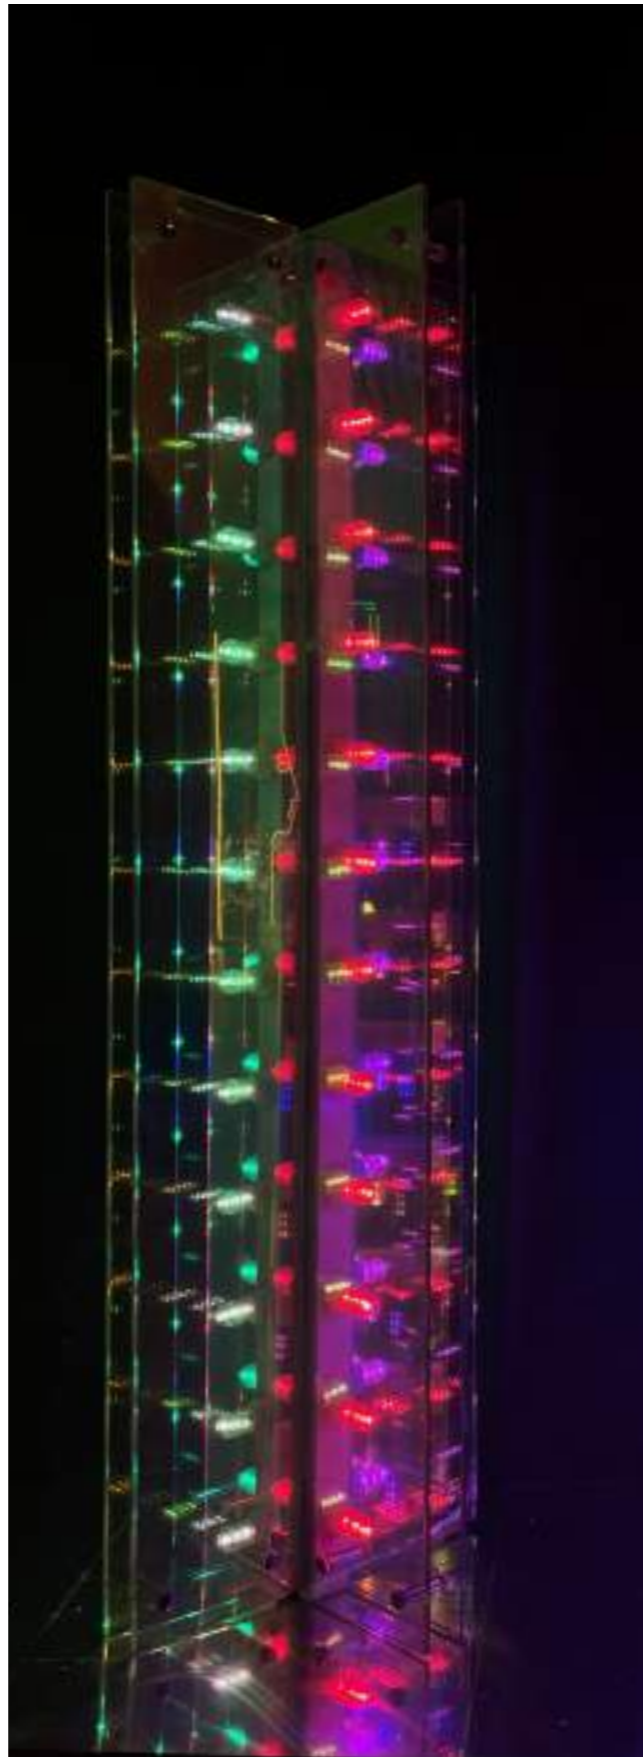

## Nella&Nello - Stefano Ghiretti II

The work of this artist Stefano Ghiretti is conceptual. 2 the lights were designed by Stefano Ghiretti and created by Mariano Light 3 The lights were made with wood, glass, aluminum and light bulbs.

Designer/Maker: Stefano Ghiretti by Mariano Light  
Materials & Techniques: Wood, lamps, glass and aluminum  
Tension: 12V

Date of creation: 2023  
Dimensions: 35 x 35 x 100 cm  
Weight: 15 kg  
Country of Origin: Italy

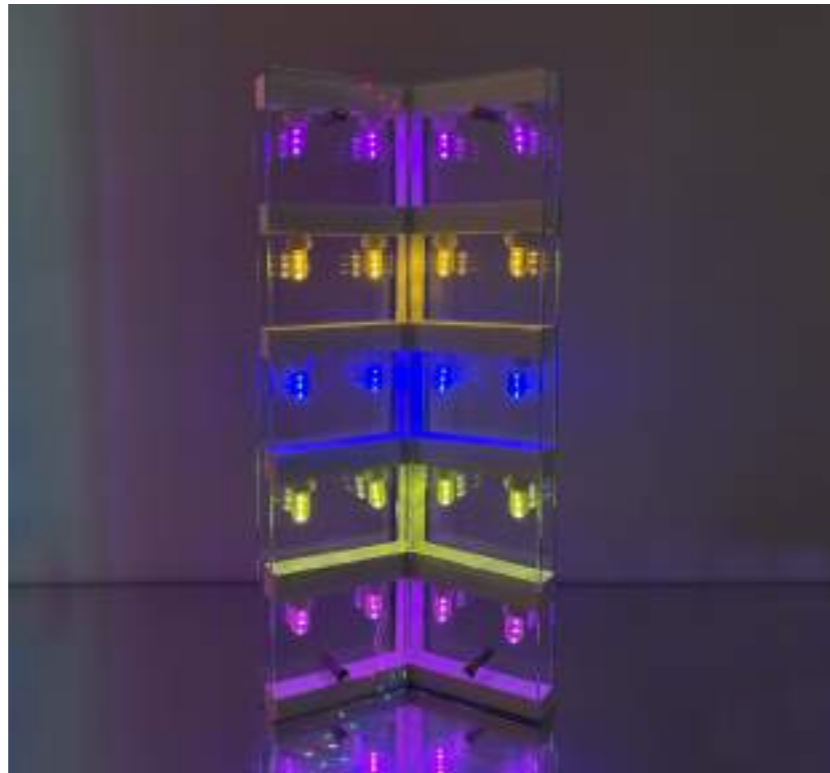

## Nella&Nello - Stefano Ghiretti I

The work of this artist Stefano Ghiretti is conceptual. 2 the lights were designed by Stefano Ghiretti and created by Mariano Light  
3 The lights were made with wood, glass, aluminum and light bulbs.

Designer/Maker: Stefano Ghiretti by Mariano Light  
Materials & Techniques: Wood, lamps, glass and chromed steel  
Tension: 12V

Date of creation: 2023  
Dimensions: 25 x 25 x 60 cm  
Weight: 12 kg  
Country of Origin: Italy
